about me

I have two years of experience in web programming (React-js, Next-js). Sufficient mastery of Tailwind, javaScript,Bootstrap, Html&Css , so far I have done more than 6 different projects with Next js. And I have relative familiarity with figma and ui/ux. I am very enthusiastic and committed to my work and I try to be up-to-date at least in my specialty.

Skils

Next js	Restful api	JavaScript ES6	i18Next
React js	MUI	Bootstarp	HTML & CSS
Redux	Styled Component	Tailwind css	

work experience

— 2022 - 2023
